

# AILYN ANGELES

## Software Engineer

### WORK EXPERIENCE

#### Senior Software Engineer

Cambridge University Press & Assessment

October 2023 - March 2025

- Developed interactive learning games for both mobile and web platforms
- Implemented text-to-speech functionality to support audio-based learning in a mobile game
- Built a UI component library that follows a design system
- Designed and implemented data schemas using the Contentful platform
- Contributed to resolving security vulnerabilities
- Enhanced existing CI/CD processes to improve code quality and streamline delivery
- Conducted technical analysis to ensure alignment with project goals and feasibility

#### React JS Developer

Samsung R&D Philippines (SRPH)

April 2022 - October 2023

- Contributed to the development of audio/visual notifications, statistical graphs, and other monitoring features for a web-based network application
- Helped translate application requirements and specifications into user stories
- Collaborated closely with developers and counterparts through code reviews, technical discussions, and team meetings
- Supported the transition from Kanban to Agile methodologies and practices

#### Senior Application Developer

Accenture INC.

September 2021 - April 2022

- Engaged in a focused upskilling program to stay up to date with the latest technologies and enhance knowledge in software development

#### Software Engineer

INFOR PSSC INC.

September 2016 - September 2021

- Developed various features for a multi-tenant eCommerce project utilizing Liferay as CMS
- Contributed to the migration from Liferay 6 to Liferay 7
- Presented project progress through sprint reviews
- Created unit tests to ensure code quality
- Collaborated closely with cross-functional team and offshore counterparts
- Mentored a junior developer to help them familiarize themselves with the project processes and technologies
